

Agricultural plastic film recycling program

ACCEPTED plastics :	EXCLUDED plastics :
<ul style="list-style-type: none">• Round or square bales wrapping,• Ag-bag,• Plastic tarp,• Green house plastics,• Feed or other plastic bags,• Pallet wrapping,• Other plastic films (ex. polythene).	<ul style="list-style-type: none">• String, ropes & nettings,• Mulch plastics,• Weaved tarps,• Tubing, piping & other hosing materials,• Plastic containers or other rigid plastics.

Instructions for cleanliness:

The plastic film must be relatively clean, exempt from dirt, hay and manure. You have to shake them before attaching them in small packages or placing them in the bin.

Instructions for by-the-road disposal

- In small bundles (less than 25 kg (50 lb)). For example: rolled and attached with a rope; placed in a feedbag).
- or in a CLEARLY identified bin
- Possibility of using a container, cost paid by the user

**Attention: if there are other collections on the same day:
Please place the plastic CLEARLY APART from the garbage.**

Frequency : Once a month, beginning in January, 2016.

For more information, please contact the municipality.
